To Whom It May Concern,

Thank you for your inquiry. Energy Medicine works with the body’s “energy fields” to promote health and healing. “Energy Field Disturbance” is a standard diagnostic code (1.8) recognized by the North American Nursing Diagnosis Association and by insurance carriers. Interventions to correct disturbances in the body’s energy fields are believed to initiate and promote the healing of physical disorders and have become a part of the standard-of-care within nursing as well as other disciplines.

Among the therapies that are recognized as respected approaches within Energy Medicine or Energy Psychology are Acupuncture, Acupressure, Healing Touch, Therapeutic Touch, Reiki, Shiatsu, Medical Chi Gong, Applied Kinesiology, Touch for Health, Eden Energy Medicine, Emotional Freedom Techniques, Thought Field Therapy, and Tapas Acupressure Technique, among others.

Best regards,

David Feinstein, Ph.D.
Executive Director
